## Tucson C2E™ Project Site: SKY ISLANDS SCHOOL WATERSHED PROJECT

[conserve2enhance.org](http://conserve2enhance.org)

---

### Welcome to our Sky Islands School Watershed Project!

**Revegetation of the watershed at Rogers Commons—the former site of TUSD's Anne Rogers school—is part of a larger comprehensive plan to restore the native ecology surrounding Sky Islands School.** This project on the corner of the school grounds is designed to utilize passive water harvesting to support native trees and plants that will create a bird-friendly habitat. Water that ran previously across the watershed and drained off into the storm drains is now being diverted by the curb cuts made along the driveway back onto the earthworks and into the basins, retaining in excess of 200,000 gallons per year on the land as water for plants that would otherwise end up in the storm drain. Work on this project has been done by students, staff, and members of the local community.

#### What is C2E™?

Conserve2Enhance (C2E) is an innovative concept developed by the University of Arizona Water Resources Research Center (WRRC) to connect water conservation efforts with environmental enhancement projects. The first C2E program in the nation was developed right here in Tucson thanks to a collaboration between WRRC, Tucson Water, Sonoran Institute, and Watershed Management Group. C2E encourages participation to...

1. Conserve water by changing behaviors or installing water saving devices
2. Track water savings with [conserve2enhance.org](http://conserve2enhance.org)
3. Donate water conservation savings

Make your conservation count with C2E! Click, conserve, and enhance with the free C2E Water Use Dashboard. Sign up at [conserve2enhance.org](http://conserve2enhance.org) to get conservation tips, track your water savings, and make donations. Are you a Tucson Water customer? If so, you can also donate through the Open Space and Riparian check box on your monthly water bill.

### C2E™ Photo Station

photo point viewer

#### Be a Citizen Scientist!

Tucson C2E needs your help to document how much the Sky Islands School Watershed Project has changed since joining the C2E family. Take 2 photos using this frame as a guide, share it with Tucson C2E, and then visit [www.conserve2enhance.org](http://www.conserve2enhance.org) to see a photo browser created by Tucson community members like you!

#### How do you use this photo station?

1. Center your camera lens in view of the photo point viewers on this sign
2. Take a photo
3. Share your pictures with Tucson C2E using the QR code OR emailing it to [photos@conserve2enhance.org](mailto:photos@conserve2enhance.org)
